The Resort Group offers a range of proven property investments, combined with the luxurious lifestyle of a holiday home in the sun.

As a property developer of the highest quality, we specialise in developing luxurious beach front hotels & Resorts in partnership with world-class hotel operators. We are currently focused on a range of 5-star projects in Cape Verde, one of the world's hottest property investment locations, thanks to its rapidly growing tourism industry.

You can take advantage of the Islands' flourishing tourism market with the purchase of one of our 5-star Cape Verde properties. We have several projects available for investors, offering long term growth and substantial returns as well as the opportunity to experience the sun-drenched Islands for yourself; with free accommodation at our Resorts, as part of the investment package.

Discover Cape Verde

Situated in the Atlantic Ocean off the west coast of Africa and just one hour south of the Canaries, Cape Verde is a tropical archipelago consisting of ten Islands and five islets. It's an idyllic location with endless sunshine cooled by gentle sea breezes and year round temperatures of around 25°C to 30°C.

Cape Verde boasts some of the best beaches in the world; famed for their pure white sand and crystal clear waters. It is a true beach lover's paradise and one that can rival any holiday destination in the world.

Bustling with potential and already established in the industry as a hotspot for property investment, Cape Verde offers unrivalled opportunities for long-term growth and substantial returns through tourism.

Why invest in Cape Verde Property?

- Spectacular growth in tourism with a 115% increase since 2000*
- The booming tourism industry is the key contributing driver to the strength of the local economy, with a further 5% growth expected this year**
- Excellent year-round sunny climate
- Direct flights are available from many cities around the world
- Flights from the UK take just 5½ hours
- A renowned sunshine destination with some of the best beaches in the world
- Politically very stable with a growing economy since the late 1990s
- Strict environmental controls and regulations for touristic development

Property investment is protected by strict legislation, allowing only low-density and low-rise development projects to proceed. Not only does this preserve the original character of the Islands, it safe-guards against over development which may lead to an excess of supply, thus protecting your investment for the years ahead.

With it's year round sunny climate and thriving tourism market, Cape Verde delivers the perfect economic and environmental conditions for a rewarding property investment.

A RICH AND FASCINATING HISTORY

A Rewarding Range of Ownership Options

Purchasing one of our luxurious 5-star Resort properties opens up a world of options, rewards and ownership benefits.

All of our apartments, rooms, suites and villas are sold on a freehold basis, individually registered under separate legal title and that means you own unencumbered title to your Property. Therefore, you decide how your property is managed, and how it works for you as an investment.

A Lifestyle Purchase

A luxurious holiday home in the sun is part of most people's dream lifestyle, and you may decide to keep yours to yourself. If you do decide to buy as a lifestyle choice, then you can still benefit and experience all the luxurious facilities including access to communal areas, the Resort pools and lounge areas.

You will also be able to enjoy the many bars and restaurants on a pay as you go basis, or indulge in an all-inclusive wristband during your stay at an extra cost. Access to the wireless network is complimentary and housekeeping is also available at an extra charge.

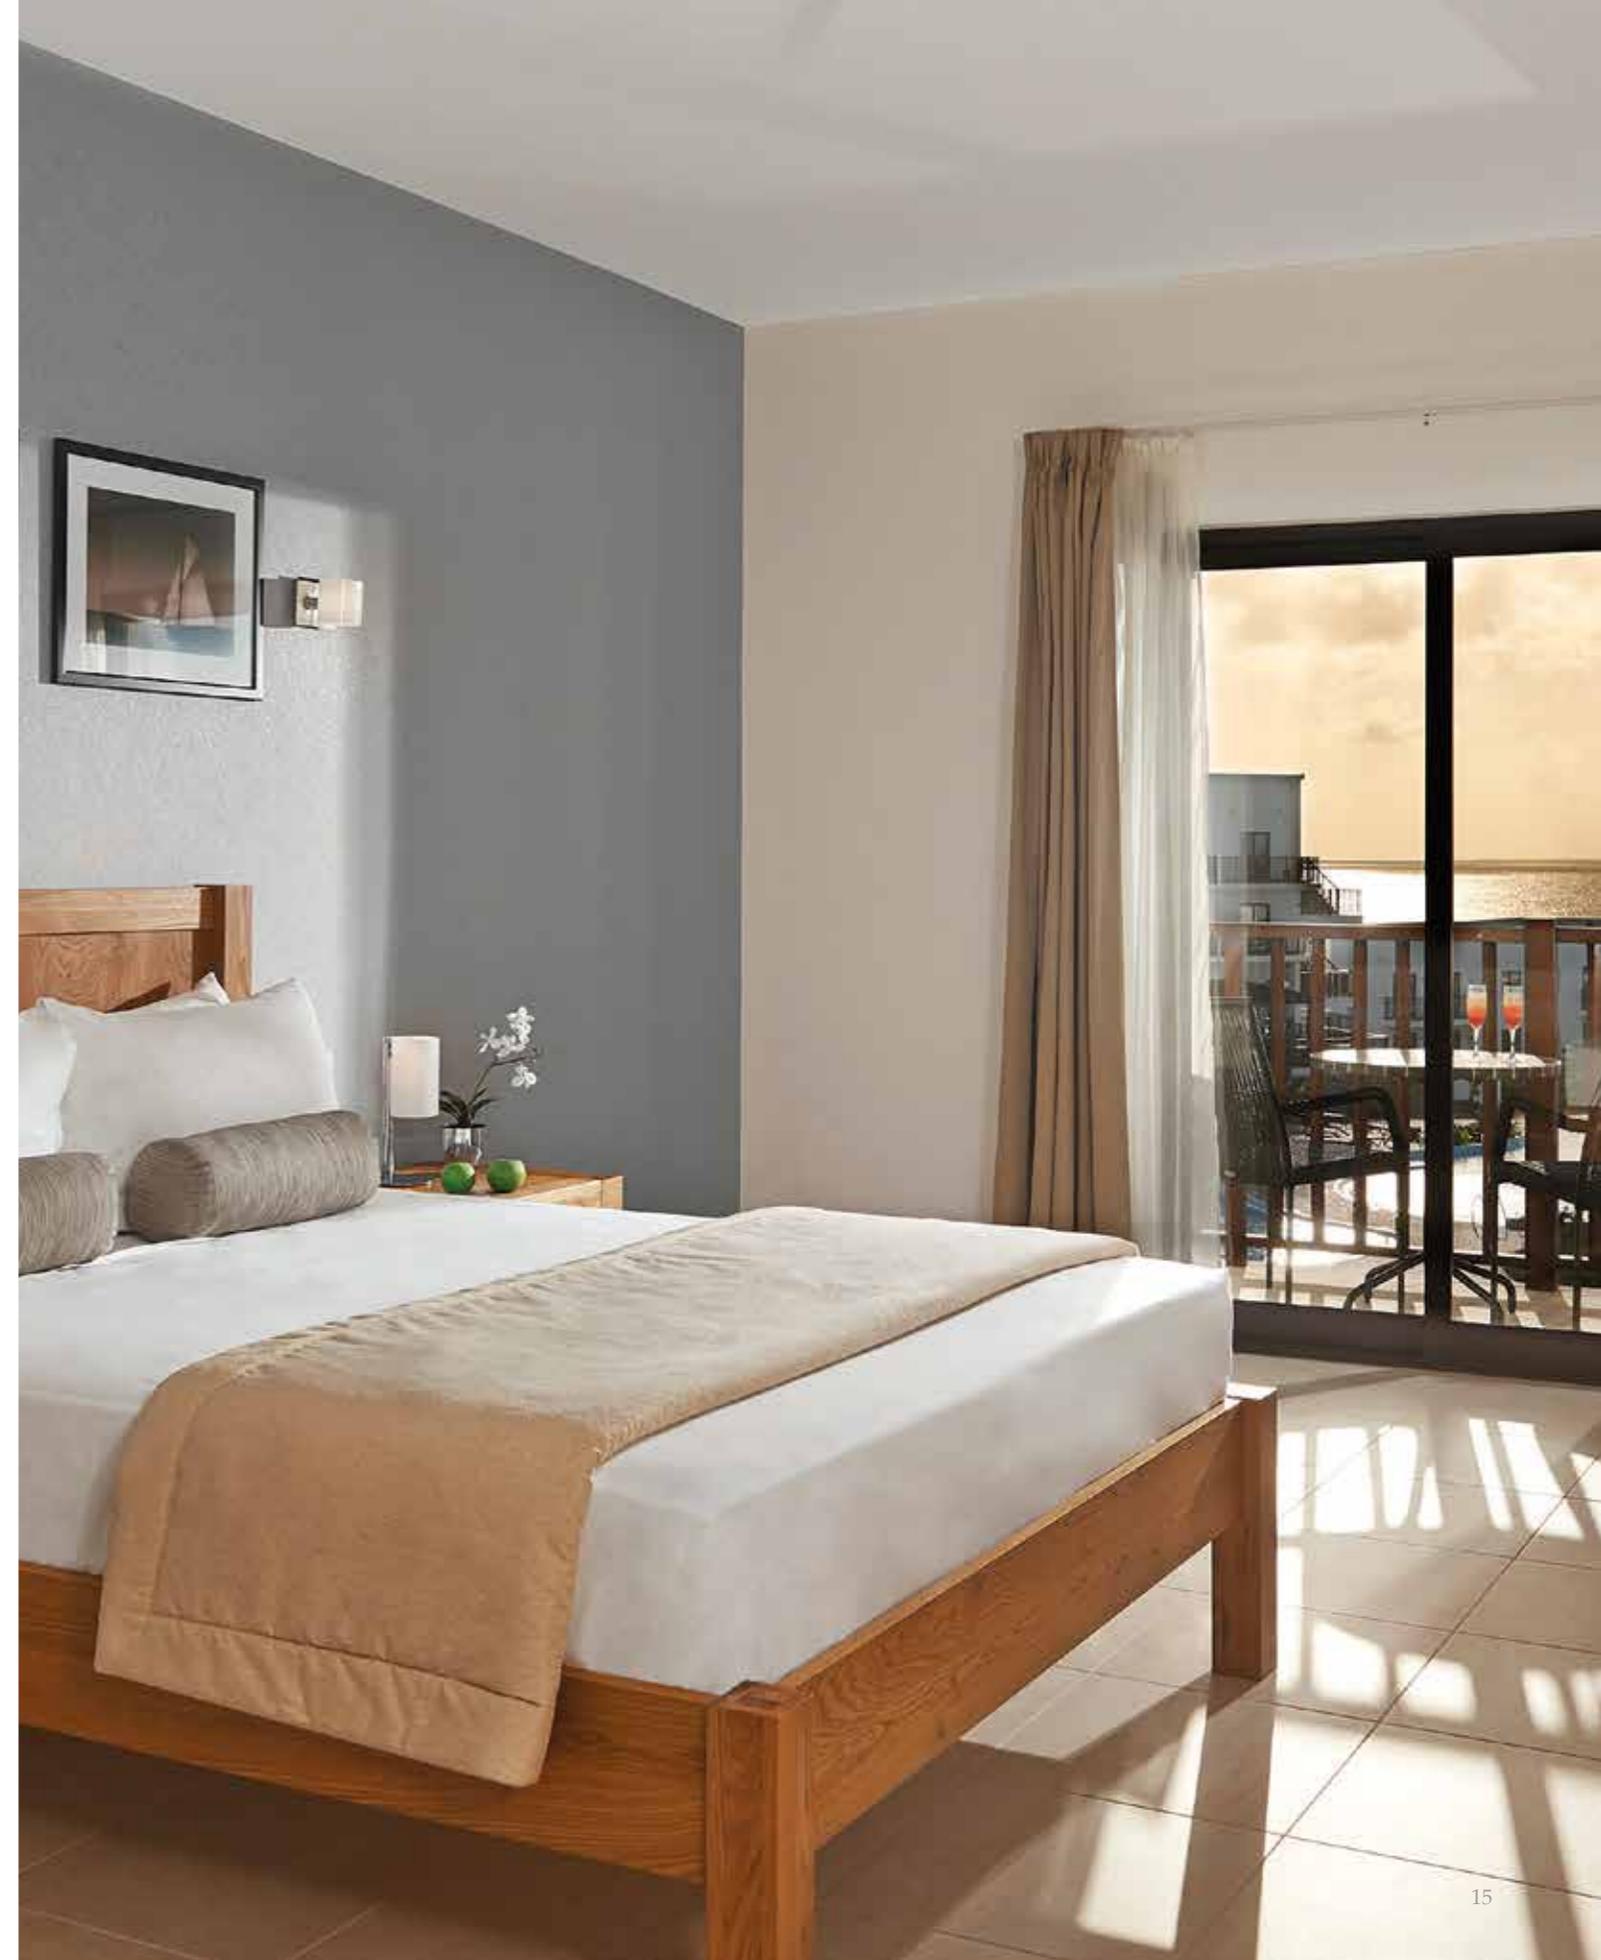

It will be your piece of paradise, a luxurious property with all the 5-star services you would expect from a world renowned hotel brand.

Independent Rental Purchase

Many of our clients like to self-manage their properties, either fully independently by renting it to their network of family and friends, or listing their property online with an independent rental company.

This combines the lifestyle benefits of a holiday home in the sun with additional rental income. It may also benefit those looking for more personal usage than the standard 5 weeks per year offered within the Hotel Rental Program. It means you retain control of how your property is managed, setting the rental rate per week, and when it is available for paying guests.

The same benefits that you enjoy at the Resort will be available to your rental guests, as well as the option for purchasing additional extras such as the all-inclusive wristbands, spa treatments and house-keeping.

The Hotel Managed Program

All of our Resorts offer investors an opportunity for consistent, sustained and equitable rental returns via the Hotel Managed Program.

All property owners have the option to join the Hotel Managed Program. Everything is taken care of on your behalf and you will receive a share of the revenue derived from the touristic exploitation of your property. To top it all off, you'll be entitled to holiday in your property for up to 5 weeks per year.

Some may say you've got the best of both worlds.

If you decide to place your property within the managed scheme, it will be marketed to millions of holiday makers throughout the world, maximising the opportunity for year round rental income.

Meliá Hotels International, the largest Resort operator in the world, has an unrivalled reputation for delivering a world class guest experience as well as lucrative commercial partnerships in place with global tour operators and travel agencies. Our unique, hassle-free hotel managed program has been proven to deliver consistent rental returns for owners, as well as the opportunity for excellent capital growth.

You can join the program on a flexible rolling one-year contract, providing you with day-to-day management control should your circumstances change or you decide to take up a different rental opportunity in the future.
